Subject: FW: We didn't have anything in the weekly forecasting the Aquifer Exemption workshop nor the ARNI for Cordova Hills

Hi Linda,

Per Jane's message, can we forward this along –

Aquifer Exemption Workshop – EPA will be joining the State Division of Oil and Gas and the Water Board at a technical workshop on aquifer exemptions Tuesday February 24th in Bakersfield. The workshop is targeted for oil and gas operators, to provide general information about aquifer exemptions, some process details about how the State will review/evaluate exemption requests, and describe the relative roles of EPA and the State agencies. (Albright, 2-3971)

Thanks,

David

I didn't see anything to pull up from last week either. If you have time to write something short and work with Linda to forward, that would be great. Thanks.

Jane Diamond
